

Drain Line Valve for Wet Riser

General Description

Rapidrop Drain line valves are used for testing the Rapidrop DRV010 and DRV020 wet riser pressure regulating valve. Installed on the drain line these valves are supplied complete with instantaneous male connection to connect the fire hose.

The drain line valve is supplied complete with rubber cap and chain.

Specification

Size	DN65 (2 1/2")
Max Working Pressure	20 bar (290 psi)
Inlet	DN65 (2 1/2") Male Instantaneous Hose Connection BS336
Outlet	R 2 1/2" (2 1/2" BSPT)

Material Specification

Part No.	Description	Material
1	Ball Valve	Brass
2	Male Instantaneous Hose Connection	Aluminium/Gunmetal
3	Cap	Rubber
4	2 1/2" Nipple	Mild Steel Galvanised

Ordering Code	RDWRDV065
