

## Surge Restraint for cPVC Pipe

### Features

- Accommodates multiple sizes of 115 standard duty loop hangers
- Complies with NFPA® 13 standard by restricting the upward surge movement of activated fire sprinkler systems
- Grips the loop hanger, not the nut, allowing fine tuning for height adjustment
- Easily installs by hand before or after pipe is positioned in hanger

### Material

Spring Steel

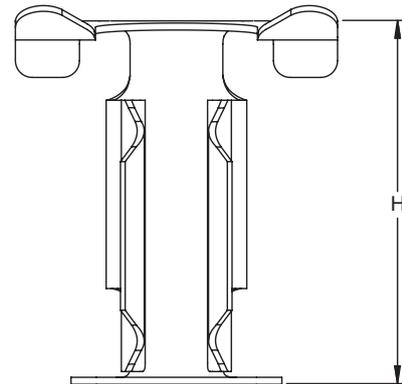

### Finish

nVent Caddy Armour

### Dimensions

Pipe Size	Height H	Ordering Codes
1/2" - 2"	33	RDC597865

Manufactured by nVent Caddy who hold UL Listed

DS: 9.24
